Bice 5.0 out of 5 stars We got it for her bday and we cant keep her off it. And since she is in gymnastics it really helps her learn her stunts at home and practice. I would recommend this for anyone with young children it is low enough to the ground that our little girl can get on and off with no assistance or ladder. It has enough bounce that it is fun for all even our 16 year old was jumping on it. Also it works for adults too it is very sturdy and safe. It is also very easy to put together it took my husband about 30 mins to do and we never cracked the instruction manuel so good luck we just love ours and we recommend it to all!With shipping, it does cost about the same as one of a larger size I saw elsewhere which made me think of getting the bigger one. But it is the perfect size for our daughter now and when she gets older. Also at the size

she is now, one of her little friends can join her. Its not difficult to move to mow the yard either. We are very pleased with our choice. With the enclosure, I feel safe about letting her jump on it. <http://xn--80aaeiengkwpz6p.xn--p1ai/pub/dxg567v-hd-manual.xml>

Its small enough to fit in our tiny backyard, but is the perfect size for her and a friend or two. GREAT exercise for her, as well. My husband and a friend put this together in less than an hour. I am very, very happy with the quality and with the overall purchase. Please click Accept Cookies to continue to use the site and also to accept the terms of our Privacy Policy.
